

Whether you're planning to build a new industrial facility, install new equipment at an existing facility, modify operations for an existing piece of equipment, or reconstruct existing equipment, Green Star can help you maneuver through the often complicated air quality permitting process. Once your facility is up and running, Green Star can also assist you in complying with the ever-changing maze of air quality regulations.

Our knowledgeable team of environmental professionals applies regulatory knowledge and research, engineering calculations, atmospheric dispersion modeling, and industry knowledge to assist clients in solving their air quality problems. Our array of air quality services includes:

Integrating Client Service With High-Level Technical Expertise

- ★ New Source Review (NSR) Construction Permits
 - Prevention of Significant Deterioration (PSD)
 - Non-attainment NSR, and
 - State-level / Minor NSR
- ★ Title V Operating Permits
- ★ Permitting Strategy Development
- ★ Control Technology Evaluations
- ★ Air Quality Dispersion Modeling
- ★ Regulatory Applicability Determinations
- ★ Regulatory Strategy Development
- ★ Air Quality Compliance Audits & Assistance
- ★ Emissions Inventory Reporting
- ★ Opacity / Method 9 Observations

Green Star air quality experts understand federal, state, and local air quality permitting and industry-specific air quality regulatory compliance issues. We develop first-hand familiarity with our clients' operations and remain current in regulatory developments affecting our clients.

Green Star personnel have air quality experience in the following industries:

- | | |
|-------------------------------------|--|
| ★ Aggregate production | ★ Natural gas transmission and processing |
| ★ Aerospace manufacturing | ★ Oriented Strandboard (OSB) manufacturing |
| ★ Asphalt production | ★ Painting Operations |
| ★ Ceramic tile manufacturing | ★ Petroleum liquids distribution |
| ★ Coating operations | ★ Portland cement manufacturing |
| ★ Chemical blending / manufacturing | ★ Plywood manufacturing |
| ★ Chemical distribution | ★ Power generation |
| ★ Food Production | ★ Primary & secondary metals |
| ★ General Manufacturing | ★ Railroad maintenance |
| ★ Hazardous waste incineration | ★ Semiconductor manufacturing |
| ★ Landfill gas to energy | ★ Solid waste incineration |
| ★ Meat processing | |
| ★ Mining operations | |
